

Please set your printer for landscape format.

Simple installation in minutes • Easy to move • Enjoy for years

Hand split, natural cedar post'n rail fence installs in minutes!

Ordering Suggestions:

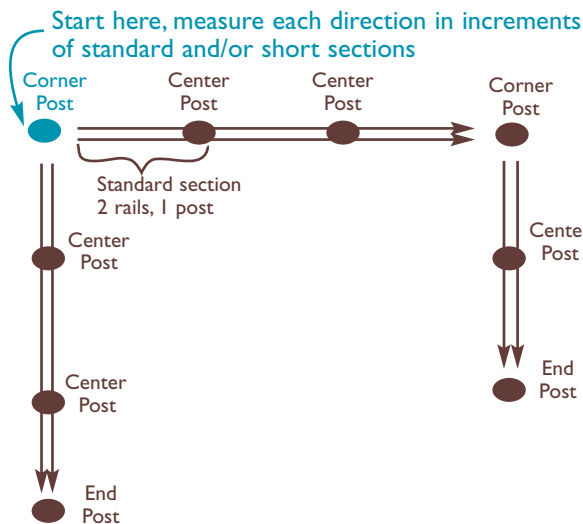

Measure the length of fence you need. If you have corners, start from the center corner and measure out each direction. Total your measurements.

Calculate how many sections you need. Standard sections measure approximately 4' 6" including two 4' rails and one post. Short sections measure 2' 6" with 2' rails.

Calculate how many corner sections, individual end posts and individual corner posts you need.

Complete the order form attached.

Space to design your
Lickety Split Cedar Fence
